PSP ONLINE is Available!

Starting next week, the all-new Professional Screening Partner ONLINE Training will be available. This incredible class has gotten rave reviews from some of your fellow-NORMI members and you can check out their interest by watching at www.YouTube.com/NORMIPro. We believe this is the best entry level course we've developed for the assessment side of your business.

This Do-It-Yourself (DIY) program allows you to provide all the services of a solution-based assessment program from the comfort of your own office! That's right, the customer completes the IAQ Survey (YOUR www.IAQScreening.com/xxxxx where xxxxx is YOUR NORMI ID number), requests the PSP Screening Kit (they pay \$99 and you buy through the NORMI Store for \$59 and have it drop-shipped to them), and THEY complete the assessment, send samples to the lab, and collect all the information YOU need to offer the IAQ Solutions and Sanitization Protocol as you've been trained in the PSP class. On a scale from 1 to 10, 90% of the people surveyed have ranked their air quality BELOW a SEVEN (7) so they KNOW they have a problem they just need YOUR help is defining those problems and offering solutions. This program closes the gap between IAQ Problems and IAQ Solutions by using ASSESSMENT. It's the best way to build a solid IAQ business.
