CE	TUESDAY NIGHT—LIVE in the NORMI Talking Studio...616.712.8000 x 988162#
7-9pmEST	Dr. Doris Rapp, Board-Certified Pediatric Physician, Doctor of Environmental Medicine <i>LIVE in the TALKING STUDIO to Answer Your Questions—Hosted by Linda Eicher</i>

**Dr. Rapp LIVE in the NORMI LIVE Talking Studio**

I was first introduced to Dr. Rapp when I read her best-seller, “Is This Your Child”. It was an awakening and started a passion in me to clean indoor air environments utilizing the three step sanitization protocol—air purification/filtration, surface protection, and lifestyle changes.

In our recent Remediation Class in Baton Rouge, I showed her “Molds—And Their Effects” and one of the students said, “That IS my child!”. For the first time he was given hope that he and his wife WERE good parents and that the ADHD their son was suffering might be the result of some environmental toxicity.

This Tuesday evening we are honored to have Dr. Doris Rapp in our NORMI LIVE Talking Studio to answer YOUR questions about molds and other indoor contaminants as they effect allergies. She and Linda Eicher, Director of Business Development, are currently in Abita Springs, LA to film video segments for upcoming promotional and training pieces and we are thrilled to have them BOTH in our office to do this call. You won’t want to miss it!

*“Dr. Rapp is one of the great pioneers in Environmental Medicine in the country and in the world. During the past couple of decades she has trained physicians by writing several medical books, videotaping her clinical findings and being a guest speaker in multiple continuing medical education conferences across the US and abroad. Dr. Rapp has been able to resolve many perplexing medical problems in children and adolescents. She provided hope when the traditional medical establishment had given up. As a clinician and surgeon in private practice, it is an honor for me to serve as reference for Dr. Doris Rapp”*

Zidi Berger, M.D., F.A.C.O.G., Rockville, MD
