**Orlando, FL**  
**01/18-21/09**

**NORMI Training Conference 2009**  
 The first annual NORMI Training Conference 2009 was designed for YOU. Our goal is to centralize some certifications and additional training to one location where the NORMI mold professional can strengthen the depth of his credentials and his understanding of the industry in which he works. Now, for the first time in the history of NORMI, you will have an opportunity to join us for three days of training that could significantly change the complexion of your business.

Our industry is vibrant—growing, changing, and developing on a daily basis. NORMI saw the need to have a single location where some specific goals could be accomplished and having you there will an important part of our success. Our goals are to:

- Provide an opportunity for you to take a wide range of **short courses** designed to further educate you in business planning, marketing concepts, technology updates, and improved inspection and remediation techniques.
- Provide an opportunity for you to **increase your credentials** and receive additional certifications.

- Provide an opportunity for you to receive your **NORMI CEUs** and keep your certifications accredited for the following year.
- Provide an opportunity for you to **network with other professionals** who have experienced what you have experienced in the field.

NORMI invites you to join us at the NORMI Training Conference 2009, to be held January 18-21, 2009, in Orlando, Florida. You can expect to hear success stories, case studies, technology trainings, financial education, marketing plans, and much more. Network, discuss and find solutions to the challenges you experience in the field and learn relevant solutions to issues you face.

Registration coming soon **ONLINE** at [www.NORMI.org](http://www.NORMI.org)
