**What is Anasphere?**

Anasphere is an EPA Registered, FDA food-contact surface approved product that will significantly change the way chemicals are applied to deal with microbials, bacteria, and viruses...including Influenza A, MRSA, and a ton of other contaminants.

Tomorrow night, Steve Meyers, President of Anabec will be discussing this incredible new product. One of the most exciting aspects of this concentrate is that you won't be paying to ship WATER! This concentrate will come in a 3 oz. package that produces FIVE GALLONS of RTU product. This is incredible and you won't want to miss hearing about this product. See you tomorrow night at 7pmEST.
