CE	TUESDAY NIGHT—LIVE in the NORMI Talking Studio...616.712.8000 x 988162#
7-9pmEST	<p>Bill Haile, NORMI CMR Trainer, talks about what a CMI can do with a large job!</p> <p><i>“NORMIPro Environmental TASC Force Chapters Multiplying”</i>—Linda Eicher, Director of ETF</p>

### BECOME a VIRTUAL MEMBER

We have had such an overwhelming response from NORMI members who want to become a member of the NORMIPRO Environmental TASC Force. The only problem—there is not a chapter close to them. Well, WE HAVE THE ANSWER

#### Virtual Chapter #81010

Become a member in the VIRTUAL CHAPTER now available to any NORMI member who does not have a local chapter nearby. This will also be a great opportunity to experience the value of the TASC Force, learn how to build a team of environmentally-minded business owners in your area, and possibly lead you to developing YOUR OWN TEAM with you as the Chapter President.

This “apprentice” program is managed by NORMI administrative offices and is available for any ACTIVE member by simply complete the application at <http://normi.org/memapp.html> or call 877.751.3100 x 81010 The meetings will be starting soon so **GET ON BOARD NOW!**

### Pesticides Shown to be Huge Parkinson’s Disease Risk

(NaturalNews) According to the National Institute of Neurological Disorders and Stroke, most researchers believe exposure to some kind of toxin or toxins in the environment triggers the development of Parkinson’s disease (PD) — the degenerative disorder of the central nervous system that impairs motor skills (including walking), speech and other function. Pesticides have long been on the list of possible suspects as a PD-causing toxin. But a new study just published in the American Journal of Epidemiology by University of California at Los Angeles (UCLA) scientists appears to be the “smoking gun” that places pesticides at the top of that list. They found that exposure to a combination of two widely used pesticides increase the risk of Parkinson’s disease by an incredible 75 percent.
