7-8pmEST	A Mold Remediation Project—Bill Haile, CMI/CMR/etc...
8-9pmEST	How to Interpret the EnviroScreening Lab Report

OK, so do you Twitter, Tweet, or Twit—Twitch is it?

According to Wikipedia—Twitter is a free social networking and micro-blogging service that enables its users to send and read each others' updates, known as *tweets*. Tweets are text-based posts of up to 140 characters, displayed on the author's profile page and delivered to other users - known as followers - who have subscribed to them. Senders can restrict delivery to those in their circle of friends or, by default, allow open access. Users can send and receive tweets via the Twitter website, Short Message Service (SMS) or external applications. The service is free over the Internet, but using SMS may incur phone service provider fees.

According the LANCE—He writes, “Yes... NORMIPro is now Twittering on Twitter.com. Stay up to date with breaking news, special 1 day promotions, and reminders by following NORMIPro on Twitter. Congratulations to those of you that took advantage of the 1/2 price training special announced on the NORMIPro site at www.twitter.com/NORMIPro. To view and join the NORMIPro Twittering, go to Twitter.com/NORMIPro, signup and select follow to receive Tweets from NORMIPro. We will announce specials, things in the news, and much more.”

Twitter is a service for friends, family, and co-workers to communicate and stay connected through the exchange of quick, frequent messages. People write short updates, often called "tweets" of 140 characters or fewer. These messages are posted to your profile or your blog, sent to your followers, and are searchable on Twitter search.

According to DOUG—He writes, “Why is this a good thing for NORMI Members? This is a great way for you to stay connected with the sometimes daily changes and announcements regarding special sales, special classes, or just keep in touch with the rapidly growing business. It’s all about YOU knowing what’s going on and there simply isn’t a better way to get real time information!”
