CE	TUESDAY NIGHT—LIVE in the NORMI Talking Studio...616.712.8000 x 988162#
7pmEST	CMA/CMR in FLORIDA in January 2010—You WANT to be there...

### FLORIDA/ARKANSAS Laws Ready to START

If you are working in the states of Florida or Arkansas, you will soon be required to have certifications that evidence your experience in the Mold-Related Industry. Here are the facts:

- **January 1, 2010—Arkansas** will institute a Mold Assessor license requiring that each CMA be certified by the ACAC. There is still some question as to whether or not those working in the mold industry may be grandfathered in but the ACAC Certification will be a must in any case. The NORMI CMA Class will prepare you for this test!
- **July 1, 2010—Florida** institutes its licensing law for both Assessors and Remediators. The debate is raging but it looks probable that both certifications from ACAC and NORMI will be accepted for grandfathering AND for new applicants. What does that mean? If you are currently certified and an ACTIVE Member of NORMI, you MAY be able to simply get your insurance and become licensed in the state as either a CMA or CMR. (more details to come!)

For now, what does this mean? It means that Best Training School, LLC is now training Assessors and Remediators in the materials needed to pass the tests necessary to become licensed in these states. **THIS IS BIG NEWS!** These classes, now scheduled for Florida and Arkansas include the following information and training:
